Towa Kunitate Co.

Situation of the outbreak of the new corona virus in our company

We are very sorry to inform you that one of our employees has tested positive for the new corona virus due to a family infection (asymptomatic).

We would like to express our sincere apologies to the people living in the area and all related parties for any concern this may cause.

Workplace	Gifu Prefecture Minokamo City
Infected	One of our employees
symptoms	None (as of 8:00 in the Morning of April 24)
Source of infection	Due to a family member living in the same household being infected
Influence on operation	None
last seen in the company	April 21, 2:50 in the afternoon
Confirmation of result	April 23, around 7:00 in the evening
Possible close contact	None

We have registered all of our employees' locations for their rest areas,whom they interact with during breaks, and where they sit at tables during lunch, and we have implemented appropriate disinfection immediately after the last day of work in accordance with the disinfection manual, including the locations employees go to during their working hours.

After we received the corona report, we expanded the temperature check to the entire department, and we are pleased to report that all the employees had appropriate body temperatures at 7:30 in the evening on April 23, and In the Morning of April 24th, everyone's temperature was still normal.We will continue to monitor their temperatures as necessary.

There is no one who has been in close contact with the infected person, but employees with potential contact have no fever or other symptoms.However, to be sure, we will consult with the public health center and arrange for testing if necessary.

We immediately reported to Kamo Public Health Center, which has the authority over our company, after the positive result, and will continue to provide instructions in cooperation with our industrial physicians in the future. We would like to ask for your continued support and cooperation.
